

SOHAM BALAJI RAMSHETTE

Aspiring Cybersecurity &
Tech Professional

ABOUT ME

Aspiring technology professional currently pursuing B.Tech in Computer Engineering at MIT Academy of Engineering. Passionate about programming, logical problem-solving, and exploring emerging technologies. Highly interested in **cybersecurity** and eager to gain practical experience while building strong technical skills.

EDUCATION

- **B.Tech in Computer Engg (Software Engineering)**
MIT Academy of Engineering, Alandi
2025 – Present
- **Podar International School, Latur**
Latur, Maharashtra | 2013 - 2023

PROJECTS

- ♦ **AdmissionMate AI**
 - Built an AI-powered college admission assistant for students.
 - Integrated IBM Watsonx AI to answer admission-related queries.
 - Developed responsive frontend and Flask backend.
- ♦ **Library Management System (Linux)**
 - Developed a library management system using Linux environment and command-line operations
 - Implemented features like book record management (add, delete, update, search)
 - Improved understanding of Linux commands, scripting, and system-level operations.
- ♦ **E-Voting System Using Blockchain**
 - Developed a secure blockchain-based electronic voting system.
 - Implemented smart contracts using Solidity to ensure transparent and tamper-proof voting.
 - Enabled secure voter registration, vote casting, and automatic vote counting.

SKILL

- Programming: C, Python, JavaScript
- Web Technologies: HTML, CSS, Flask
- Tools: Linux
- Blockchain: Solidity, Ethereum Smart Contracts
- Cybersecurity Basics: Networking, System Security
- AI & Tools: IBM Watsonx AI, IBM Granite, RAG

CERTIFICATES

- Linux, Programming in C & Python
- Introduction to AI
- IBM SkillsBuild
- Blockchain Fundamentals
